**Introduced by Senator Scott**

An act to amend Section 17462 of the Education Code, relating to school property.

LEGISLATIVE COUNSEL'S DIGEST

SB 1415, as amended, Scott. Surplus school property: use of proceeds.

Existing law allows the governing board of any school district to sell any real property belonging to the district or to lease for a term not exceeding 99 years, any real property, together with any personal property located thereon, belonging to the district, subject to specified requirements and limitations. Existing law requires a school district to use the funds derived from the sale of surplus property for capital outlay or for costs of maintenance of school district property that the governing board of the school district determines will not recur within a 5-year period. Existing law allows a school district to deposit the proceeds from the sale or lease with an option to purchase of school district property in the general fund of the district for any general fund purpose if the school district governing board and the State Allocation Board have determined that the district has no anticipated need for additional sites or building construction for the ~~five-year~~ 5-year period following the sale or lease, and the district has no major deferred maintenance requirements.

This bill would delete the authority of a school district to use those proceeds for any general fund purpose. The bill would increase from

five 5 to ~~ten~~ 10 years the time period following the sale or lease for which the school district governing board and the State Allocation Board are required to determine that the district has no anticipated need for additional sites or building construction. The bill would require that the proceeds from the sale or lease of school district property be used in a manner that provides for the long-term financial security of the district. The bill would prohibit a school district from using those proceeds for ongoing expenditures including, but not limited to, salaries and other operational expenses. The bill would require the State Allocation Board, *in consultation with the State Department of Education*, to adopt regulations that define ongoing expenditures for purposes of that prohibition. The bill would also delete obsolete provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.
